## PROFILE

Motivated and detail-oriented Java Full Stack Developer with strong expertise in building scalable web applications using Java, Spring Boot, and RESTful APIs on the backend, and HTML, CSS, JavaScript, and React on the frontend. Proficient in database design using MySQL. Experienced with version control (Git), Agile methodologies, and modern deployment practices. Passionate about delivering clean, maintainable, and performance-driven code.

## EDUCATION

### CMR Institute of Technology (VTU)

Bachelor of Engineering in Civil Engineering (CGPA-6.5)

12/2020 – 05/2024

Bangalore, India

### Narayana PU College (PCMC)

Pre-University Course(74 %)

04/2018 – 07/2020

Bangalore, India

## TECHNICAL SKILLS

### JAVA

Strong knowledge of Core Java concepts including OOPs, exception handling, and multithreading. Experienced in developing applications using classes, interfaces, collections, and file handling. Proficient in debugging and writing clean, efficient, and reusable Java code.

### FRONTEND DEVELOPMENT

Skilled in building responsive, interactive UIs using HTML (semantic structure, forms, media), modern CSS (Flexbox, Grid, animations), and **JavaScript** (ES6+, DOM manipulation, event handling). Proficient in **React.js** for creating reusable components, managing state/props, and implementing hooks like `useState` and `useEffect`.

### SQL

Proficient in writing SQL queries for data manipulation, retrieval, and reporting. Experienced with DDL, DML, and JOIN operations to manage relational databases. Skilled in optimizing queries and working with MySQL, SQL Server, and Oracle environments.

## INTERNSHIP

### GAO TEK INC

Web Content Upload Intern

06/2025 – 09/2025

Selected for a web content uploading role focused on digital content management. Creating and uploading detailed product pages using **WordPress**. Ensuring accuracy, clarity, and SEO-friendly content for product and industry pages to keep the website relevant and informative. Leveraging AI tools to enhance content quality and efficiency.

## PROJECTS

### Ducati Experience –A Premium Motorcycle Showcase Website

Developed a dynamic and visually striking web page for Ducati, designed to reflect the power, precision, and style of the brand. This project focused on creating an engaging user experience through modern UI/UX design and responsive web development.

## CERTIFICATES

### Full Stack Java Development (JSPIDERS)

- Learned core concepts like OOP, Collections Framework, Multithreading, and JDBC.
- Hands-on practice with frameworks such as Hibernate and Servlet for backend development.
